Their Respective Owners?

**LostAndFound.com**  
THE INTERNET LOST AND FOUND®

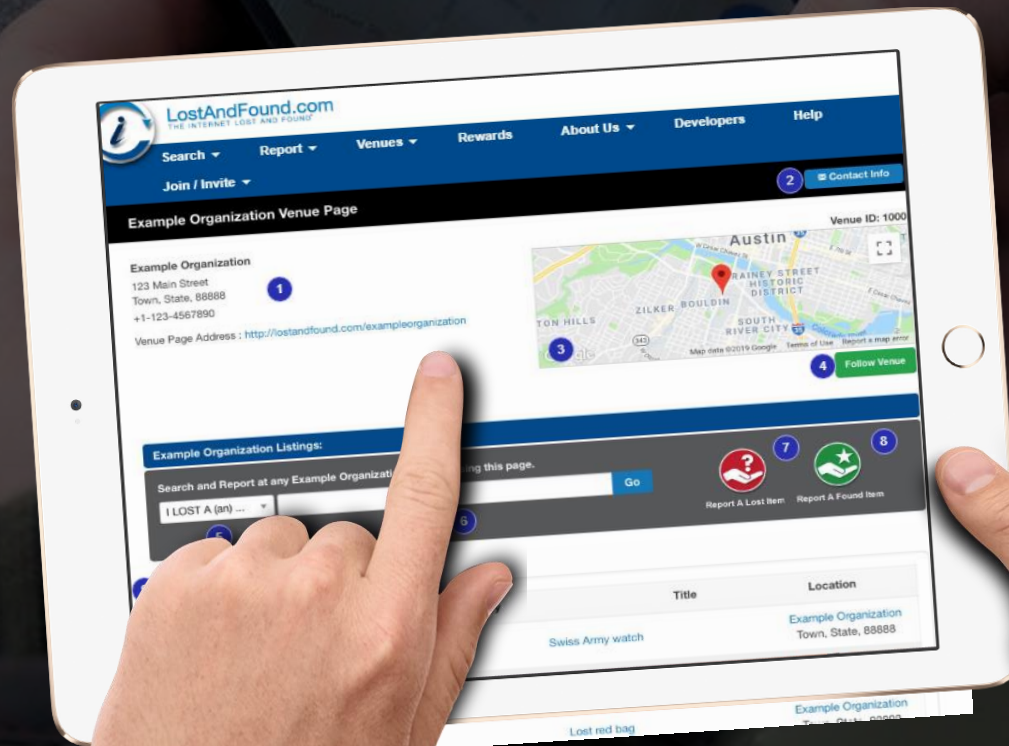

## What does **LostAndFound.com** do?

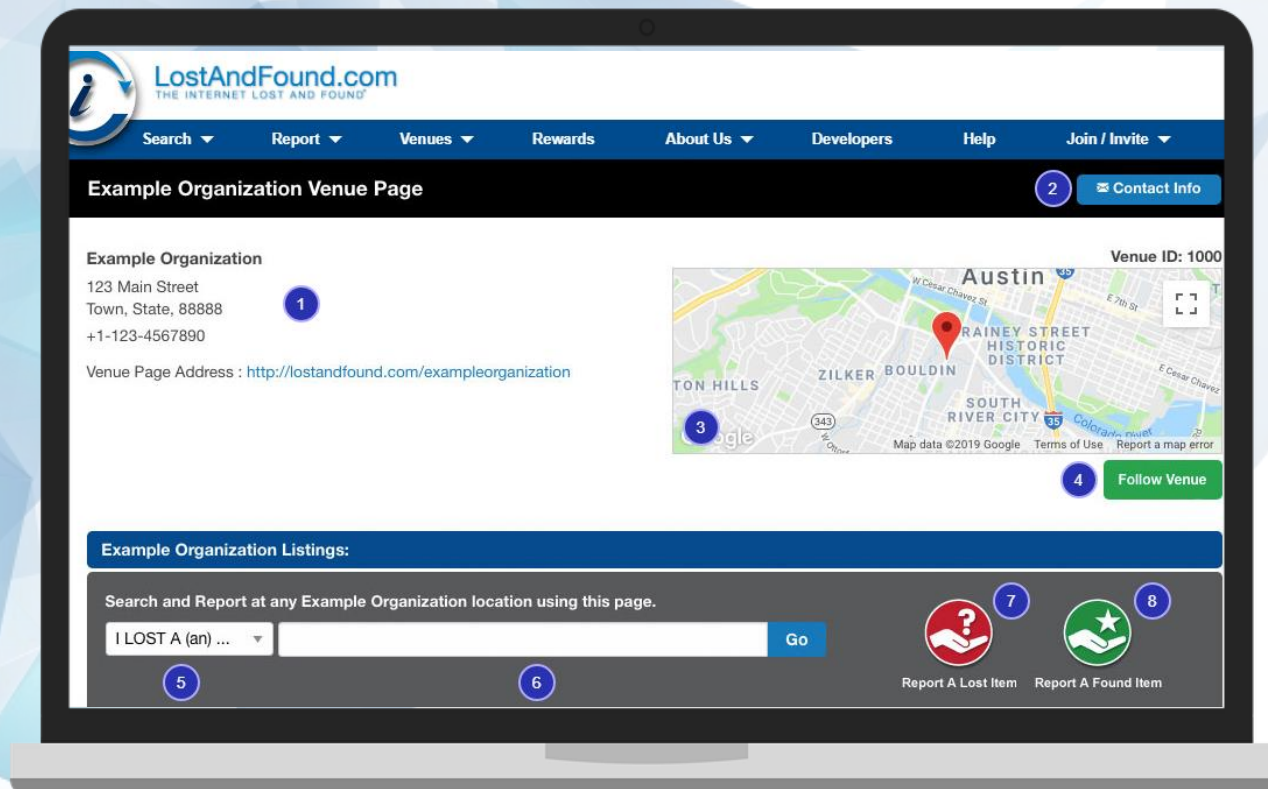

**LostAndFound.com** provides an online exchange of lost and found information for the recovery of personal property and pets, worldwide. The platform provides both individuals and organizations resources and tools to identify, organize, and enable the recovery of anything lost or found. While LostandFound.com does provide its users a universal database by country, we recognize that lost and found is primarily a local phenomenon, and have, therefore, developed our proprietary, commercial Venue Page System (VPS).

# The Venue Page System (VPS)

The Venue Page System (VPS) provides the capacity on LostAndFound.com for individual entities at specific locations to create a public, front end page, called the Venue Page, which allows their users to search or report lost or found information; while allowing organizations to manage this information through a back end, called the Venue Admin Page.

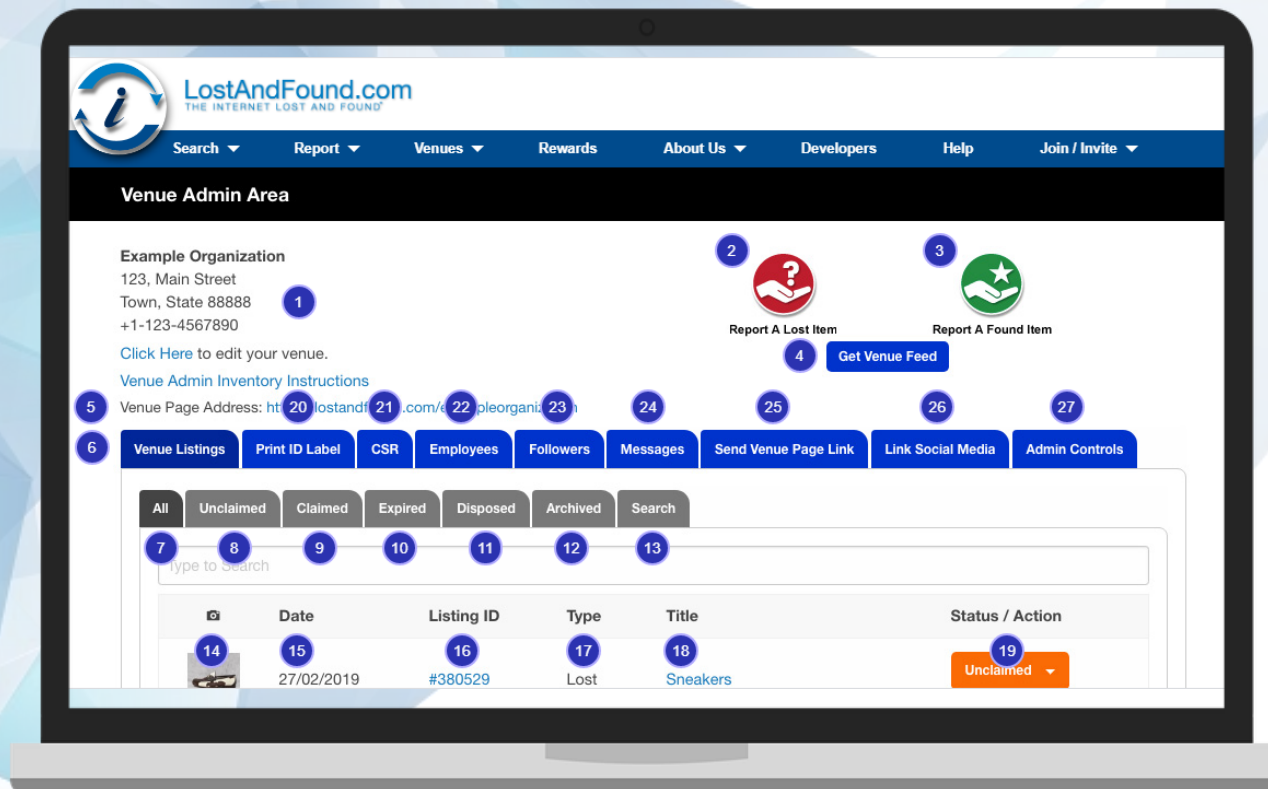

## THE VENUE PAGE

The Venue Page, fundamentally, provides the organization a unique URL ([www.lostandfound.com/yourfirmname](http://www.lostandfound.com/yourfirmname)), a page with their name and address, a map, a search field to search specific listings for that location, and report buttons to submit lost or found reports for that location. Additionally, the venue page provides all of the same premium services as the general database.

For more information about the Venue Page, please see

[www.lostandfound.com/venuepage](http://www.lostandfound.com/venuepage)

[www.lostandfound.com](http://www.lostandfound.com)

## THE VENUE ADMIN PAGE

The Venue Admin page provides organizations a found accounting and inventory management system with a myriad of functionality. Using the Venue Admin Page, organizations can age found inventory until it reaches an expired status (based on local ordinances), donate, discard, or sell expired inventory, alert employees and followers of lost and found reports or inventory, invoice and ship found inventory through a claims management process, or return claimed items in person.

**For more information about the Venue Admin Page, please see**

# CONSUMER SERVICES

## ➔ INDIVIDUAL SERVICES

LostAndFound.com provides individuals a variety of services to enable recovery.

## ➔ PREMIUM SERVICES

[www.lostandfound.com/premiumservices](http://www.lostandfound.com/premiumservices)

Lost Report users can utilize our premium services page which provides many services for the recovery of lost pets and property. Users can offer a reward, enhance their listing (bold, highlight, border, feature), add additional photos, elect email matches for matching found items, send alerts to your neighbors, send alerts to mobile users within a radius of your loss, and blast your listing to different social media platforms.

## ➔ MY ACCOUNT

[www.lostandfound.com/account](http://www.lostandfound.com/account)

Individuals are encouraged to open an account on LostAndFound.com which provides its users:

- A list of their lost or found pet(s) or item(s) submitted to the database
- Access to manage a **Venue Page** (if elected)
- A **Message Center** to receive inquiries regarding their listings
- A **My Devices** Center to manage and track personal electronic devices.
- A **My Registry** area to store personal property information and allow for reporting and monitoring for recovery in the event of loss.
- A **My ID Returns** area that creates a personally identifiable number that will directly connect, via our unique web address ([www.lostandfound.com/id](http://www.lostandfound.com/id)) any finder of lost property with the owner of said number.

# The LostAndFound.com Mobile App

➔ [www.lostandfound.com/app](http://www.lostandfound.com/app)

LostandFound.com provides a mobile application for its users on IOS and Android. Our mobile app provides the same functionality and services as the website, plus personal recovery services for the device and other devices as well.

For more information about the LostAndFound.com Mobile App,

[CLICK HERE](#)

## ➔ Personal Security Package (PSP) - Proximity Navigator™

The LostAndFound.com Mobile App offers users a Personal Security Package (PSP) for its mobile app users. Services like automated last known location (LKL) based on battery levels, multiple mapping scenarios, anti-theft features, and sharing location info with a friend, are just some of the services available for PSP users. Use the Proximity Navigator™ to hunt down your device using a friend's phone.

## ➔ LostAndFound.com Device Remigrator™ (Developers) [www.lostandfound.com/deviceremigrator](http://www.lostandfound.com/deviceremigrator)

LostAndFound.com recognizes the growth and development of personal electronic devices like smartwatches, and activity trackers. In addition, IoT (Internet of Things) is producing new mobile products like drones, robots, remotes, and more! In light of this, we have developed the LostAndFound.com Device Remigrator™ software to provide our services for these devices and more to come. Simply sign up your device using our Device Remigrator™ software, and it will appear in our My Devices tab in the My Account area.

# LostAndFound.com

## MOBILE APP FEATURES

### VENUE PAGE SERVICES

- ✓ **Interact with Your Venue Page (VPS)**
  - Take us on the go. Enhance Customer Service.
  - Great for Employees.
- ✓ **Searching and Reporting**

- ✓ **Monitor Third Party Venues**  
Track Venue Page reports. Great for travelers in airports.
- ✓ **Searching and Reporting**  
Real time Searching and Reporting anywhere. Global reach.

# LostAndFound.com Mobile Personal Security Package (PSP)

The **LostAndFound.com Personal Security Package (PSP)** for your mobile device takes some of the risk away from losing your device before the battery expires - where there becomes no chance of tracking it or signaling it back. Use the Proximity Navigator™ which uses a proprietary algorithm and resources to hunt down any of your devices using your phone or a friend's phone (requires mobile app download).

By purchasing the LostAndFound.com Mobile App PSP Subscription, you are acquiring a watchful eye on the status of your phone. Automatic Alerts and Notifications are sent to you based on the battery level. So if your device is lost and about to lose power...it will automatically make an effort to find you!

## The subscription allows the device to:

- Send its last known location to your lostandfound.Com account
- Send its last known location to your email
- Map the last known location (with address if available)
- Warn you by text that the battery is about to expire
- Turn on an audible warning indicator regarding your battery level.
- Turn on a visual warning for notice in the dark (flashing red screen)
- Turn on a vibration warning for you to feel
- Create a premade message for your screen to appear if the device is recharged.
- Share location info and device alert management with a friend (device detector)
- Hunt in the immediate vicinity for your phone using a friends phone

*Manage your alerts based on battery level and activity. It is all customizable by you!*

*To sign up, download the LostAndFound.com Mobile App from your provider's store.*

### Dog Found After 15 Days

*My dog had been missing for 2 weeks and 1 day. I called someone who had found a beagle which may have been mine, but he wasn't. The finder told me of your web site. Immediately I logged on and there was an ad which sounded like it may have been my dog. I contacted the finder, and yes, yes, yes! It was my dog. We're too thrilled to have him back home, all because of your unselfish love for pet and this web site.*

*Thanks a million bones!!  
Grayson, Georgia*

---

### Lost Westie Returned Two Months Later

*Thanks to your web site my wife and I were reunited with our lost Westie. Missing from Nov.4, we were contacted by a gentleman who had found our dog on the day it disappeared and he returned him to us on Jan.8. After finding our ad on your web site he contacted us, and due to our description, confirmed our loss. We can not thank him, his wife, and children for taking such good care of him. We will never forget their kindness.*

*Also, Thanks again for your service.*

---

### Shelter Returns Dog

*Thanks for posting this ad on the Internet.  
A shelter located me and said they had received a dog that fit the description. We went to go see the dog and it was it was our missing dog Blue! Thanks sooooo much.*

*Sincerely the FAMILY!!!*

---

### Wallet Returned from Different City

*This is a wonderful site!! Thank you very much for such a service. It is very helpful for people who have lost items and sometimes you think there is no way you will get it back and u find it here in this site. I had lost my wallet in a different city from where I live and the person who found it had put it up on this website!*

*Praveen K*

### Easy to Use Tool....

*Just like to say how reassuring using your system was. Luckily the cat came back by himself, but the ease at which I entered details and then was able to remove them was effortless and took a lot of worry away from a trying time. Hopefully will not have to use you again, but will not hesitate in doing so if need be.*

*Thanks*

---

### Reassured

*I want to thank the Internet Lost and Found service --you provided Hope and something I could DO to get my dog back home. When my pet was missing --I felt guilty, and so helpless --not able to do and see and MAKE sure he was okay... your service provided some needed relief from those negative unproductive feelings --thus allowing me to FOCUS on finding him....Additionally -- using the links and tips gave me knowledge that ultimately connected me to my pet. Without the encouragement and "How To" info. I would have not known, that MOST pets are found through the owners commitment to word of mouth, flyers, calling & visiting shelters, etc. --- very helpful --very valuable -- and it worked!!!*

*Thank you again.  
Sincerely -- Yve Moore*

---

### Dog Found 45 miles away

*About four hours after posting my notice about finding a lost puppy my wife received a call from the owner. Amazingly the owner lived about 45 miles from my home. She had been visiting friends near my house on Sunday, when the dog got away from her. She tried to catch it but it got lost. Three days later it showed up at my house. Thank you very much for this great service. We returned the puppy to it's family last night!*

*THANK YOU!!!!!!  
Bob Nickel  
Chicago, Illinois*
